No. 46

COUNSEL WITHDRAWS

FROM THE KING MURDER CASE

Advocate for the Defence Wanted a Postponement for Some Time.

Chas. King, committed for trial for the murder of E. Heyward was arraigned before the Supreme Court yesterday and pleaded not guilty.

Counsel for the crown wished the hearing in the case to proceed at an early date. Mr. Biggar, counsel for the prisoner asked for a postponement of the hearing for some time to permit an investigation into the case the preliminary hearing of which took place this week.

Judgment on this argument was given this morning declaring a postponement, whereupon Mr. Biggar stated his belief that without such investigation it will be impossible for the prisoner to make a proper defence to the charge and announced his intention to withdraw from the case.

The time for beginning the trial will be fixed by His Lordship this afternoon.

Winnipeg Epidemic.

Bulletin Special.

Winnipeg, Feb. 25th—The city council has appointed a special committee of aldermen to report on the typhoid epidemic.

Cheyenne Indians Disaffected.

Bulletin Special.

Guthrie, I. T., Feb. 25th—The Cheyenne Indians are threatening to massacre the inhabitants of the town of Tolego.

Calgary Hostile.

Bulletin Special.

Winnipeg, Feb. 25th—Dispatches from Calgary this morning denote that that town is particularly sore at Edmonton's fine start in the race for the new capital of Alberta. Messrs. Oliver and Talbot are coming in for considerable obloquy.

DESPERATE BATTLE.

RUSSIAN DETACHMENT
RETIRED.

Japanese Fleet on the Way to Vladivostok—Conditions Unimproved in Russia.

St. Petersburg, Feb. 25th—Japanese in superior numbers forced a Russian detachment at Tsin Ket Shien to abandon their base at Breshoff Hill. The battle has been desperate on both sides. Full results are not yet known. Gen. Kurapatkin wires that 20 Japanese torpedo boats and several large warships are on their way to Vladivostok. A dangerous agrarian movement has been observed among the peasantry who are seized of the idea that the land is to be apportioned among them and further political troubles are anticipated in addition to the strike phase which is becoming worse. More troops will have to be dispatched to the eastward.

CITIZENS OF EDMONTON:

NOW THAT THE FUTURE OF OUR CITY is assured, we cannot do better than begin to plan our individual investments so as to reap the greatest percentage of profit from our foresight. It is admitted by the best business men all over the world that the principle of Co-operation, when applied and rightly controlled to the business of life, is the secret of success in any community, however large or small. A Company—THE ROYAL CANADIAN CO-OPERATIVE LOAN COMPANY LIMITED—has recently been organized and incorporated under the Companies' Ordinance of the North-West Territories, with the object of applying this principle of Co-operation to the loaning of money on Real Estate security, or for the purpose of buying Real Estate, and under their contract the poorest laborer who can put aside but ONE DOLLAR per week into the Company, can be certain of having a \$1,000 House of his own in a year or two, to live in almost free of any further expense. To the small investor here is an investment which yields a clear profit of from 100 to 500 per cent. within a comparatively short space of time, which is almost as large a profit as can be made in speculating in Edmonton Real Estate. In short, the scheme is the soundest, surest and destined to be the most widely beneficial of any that this Country has ever seen, and those who are wise will investigate it without a moment's delay.

Full information can be obtained from the Local Representative of the Company, WILL CAUNT, who can be found at his office in the Heimbeck Block at any time of the day or night. Just take a walk up and see him and talk it over.

FREE LUMBER.

Under this heading the Sturgeon Falls, Ontario Advertiser says:

"In our addition last week we noted that a deputation of lumbermen principally from British Columbia, but including some of the eastern Provinces waited on Sir Wilfrid Laurier to urge upon him the propriety of putting a tax of \$2.00 per thousand on all lumber entering Canada from the United States. From the statements made to the Premier it appears that at present the settler and farmer of Manitoba, and the north-west territories, can buy the lumber required for their houses and farms cheaper from the States than from British Columbia, the States being nearer and the railway rate much less than from Vancouver. Consequently the farmer is able to obtain from the States cheaper lumber than he can get from British Columbia, paying the long railway haul and the high price the British Columbia men wish to charge. We should have thought that this was an advantage to the farmer, and through him to the country, but the lumbermen do not see the matter in this light. To buy cheaper lumber from the States, when the farmer might have the privilege of buying cheaper lumber from British Columbia, seems to the lumbermen a wicked thing and a wrong doing that should be stopped.

"As we said last week, protection means doing some one an injury in order to give some one else a benefit real or imaginary, and the lumbermen ask that the farmer should be injured that they may be benefited, that money should be transferred from the farmer's pocket to their own. The lumbermen of British Columbia demand that the price of lumber, which at present the farmer chooses to bring from the States because it suits him to do so and because he finds it cheaper to him than the lumber of British Columbia should be artificially made dearer so that he may be compelled to buy their lumber and pay the railway rate on the long haul.

"Is this policy good for the farmer? Is it to the farmer's advantage to have a part, and an important part of the raw material of his business made artificially dearer, and as a natural consequence of the profits of his farming diminished? Will he farm better or make more money, because more of his capital is absorbed in his house and barns by the increased price of lumber, and less therefore for stock and farming implements? Is it good policy for the country to make many a little poorer in order to make a few a great deal richer?

"We observed that a member of the deputation waited on Sir Wilfrid Laurier this—the northwestern farmer was willing to pay duty on his wagons and everything else he required but refused to pay duty on his lumber. How unreasonable! The speaker evidently thought that being taxed upon everything else he required, it was most unfair that the farmer should draw the line at lumber. Well, even a worm will turn, and we cannot blame the farmer in the least as to drawing a line somewhere; but why should the farmer—pay duty on his wagons and everything else—he refuses? If the farmer refuses to pay duty on lumber he is acting intelligently, for to the farming community cheap lumber is as important as cheap coal to the manufacturing community. BOTH ARE RAW MATERIALS OF INDUSTRY. With free lumber the farmer is better off than he would be with taxed lumber, just as well (free wagons) he would be better off than he is when he has to pay duty on his wagons and everything else he requires.

FREE WIRE.
There is another important article to the farmer besides lumber, which till now has escaped the taxgatherers; this is FERTILIZER, but we do like that the Government is also being urged to put a duty of 25c. or 30c. on wire fencing. This would mean an extra cost to the average farmer of from \$130.00

BULLETIN CO. (Ltd)

ROSS BROTHERS LIMITED

ARE THE SOLE AGENTS
IN EDMONTON FOR THE

MONARCH RANGE...

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Stove, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other Range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

Ross Bros. Ltd.

FREE LUMBER.

(Continued from page 2.)

to \$175.00. What will the farmer say to this.

In this district of New Ontario and in the country further west, where the land is new and has only recently been brought into cultivation, or to speak more correctly, is only being brought into cultivation, the farmer is part farmer and part pioneer. The farmer-pioneer requires all the encouragement the Government can give, and no better aid can be given to the farmer than to free his industry from hindrances put upon it by a heavy protective tariff. By the climate the distances from markets, the newness of his land, the necessity of working for years at small remuneration while his land is being brought into order, the farmer pioneer is heavily handicapped. His capital after the purchase of his farm and the cost of erecting his necessary buildings, is too often insufficient to stock and equip his farm as it should be stocked and equipped. Anything that makes dearer to the farmer what he requires can only operate to his detriment. Anything that prevents the farmer from buying what he requires, and all he requires, in the cheapest market and at the lowest price, is simply adding to his difficulties, and taking money from his pocket which should be allowed to remain there. If the farmer's money be left to the farmer to spend on his farm, it will not only benefit the farmer but help the development of Canada.

We trust that Sir Wilfrid Laurier's government will refuse to increase the burdens of the present tariff, and will rather seek in its financial policy to remove some of the burdens that bear heavily at present upon all branches of the community.

BANK OF MONTREAL ANNUAL MEETING.

The eighty-seventh annual general meeting of the shareholders of the Bank of Montreal was held in Montreal on December 5th, last at which the annual report of the Directors of the bank was presented.

The capital stock of the bank is \$14,000,000, the largest in Canada and the third largest in the world. There is a reserve fund of \$10,000,000. The total assets of the institution are placed at \$131,168,768.28. The net profits last year amounted to over \$1,600,000. Semi-annual dividends of 5 per cent were paid and over \$500,000 balance of profits carried forward to the current year. The total deposits were \$95,000,000.

The following paragraphs from the address of the General Manager refer to the general progress and the outlook for Canada and the West in particular are interesting.

"Taking a broad view of Canadian commerce, the future is bright with promise. Our population is fed now by an immigration of upwards of 100,000 people annually, and the stream appears to be well turned towards Canada. Production in the Northwest grows apace, the railways are prosperous, a second transcontinental line is on the eve of completion, the reports from the mining districts of British Columbia are more encouraging, a spirit of abiding confidence in Canada pervades our people; and despite temporary checks in the progress of material developments, there is increasing belief that this country has entered upon an era of great and enduring prosperity.

It is evident that any marked increase in the immigration, or in the production of cereals, must come from the Northwest. We have there an immense territory, of which the area stated in figures conveys no adequate idea; but taking on a portion to the south of the fifty-fifth parallel of latitude, which, as you know, passes through the north of England, the Government Expert estimates that the portion "suitable for cultivation" in Manitoba, Assiniboia, Saskatchewan and Alberta, that reaches an extent considerably exceeding the total area of the Empire of Germany, while referring to the much larger extent to the north of the fifty-fifth parallel he says: "What proportion of these vast districts will be capable of the profitable growing of crops is as yet a matter of conjecture."

You are all aware of course, that the isothermal lines do not necessarily coincide with the parallels of latitude, and these latter only approximately denote the climate, but the fact of the production of the finest qualities of wheat in our territory, as above defined, is established beyond question. You will be able to form some estimate of the possibilities of the future when I add that as yet less than 4 per cent of this land has been brought under crop. It is worthy of note also, that the yield per acre in Manitoba and the Territories exceeds that of every one of the North-Western states of the American Union, Montana alone excepted.

Croup

Mothers, never be without Hirst's Pain Exterminator in the house. No telling what night croup may attack the baby. With this family medicine handy, there's no danger of losing the little ones.

Hirst's Pain Exterminator

dissolves the phlegm in the throat—heals the inflamed lungs—cures the croupy cough—and sends baby into a natural, healthful sleep. It's a medicine for everybody—young and old. Cures rheumatism, neuralgia, headache, toothache, sprains, bruises, burns—pains of all kinds and any kind.

D.R. JAMES BOUTEREAU OF ST. CLOUD, MAN., WRITES: "I could not do without Hirst's Pain Exterminator in the house. It's the best medicine for relieving pain that I ever met with. You may judge by the quantity we have used in six years that we have unlimited confidence in it."

MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go

into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicureagua district, in the Province of Santa Clara, in the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

PRIZE WINNERS

IN LAST NIGHT'S CARNIVAL.

Daily Costumed Skaters at the Rink
Last Evening and the Characters
they Represented.

The carnival given by the Willing
Workers of All Saints church last
evening was very successful. A large
crowd turned out. The costumes were
many and excellent. Following are
the prize winners.

Ladies Best, Miss Clara Oliver as
Lady Mophetophelos.

Ladies Comic, Mrs Ormaby as Sam-
antha Allan.

Gentlemen Best, Melvin Nelson as
The Turk.

Mens Com'c. F. Danford as Bal-
let Dancer.

Girls, 16 years of age, Gertie York
as Gypsy Queen.

Girls Comic, 16 years, Agnes Man-
chester as Bat.

Boys Best, 16 years, Lary Manuel
as Jockey.

Boys Comic, 16 years, Kenny Ed-
monston as Sunny Jim.

Girls, 12 years, Martha Piper,
Strathcona, Little Bride.

Girls Comic, 12 years, Ella Blatch-
ford, Queen of Hearts.

Boys best, 12 years, Donald Mc-
Donald, Indian Chief.

Boys Comic, 12 years, Willie Sutter
as Happy Hooligan.

Best Lady Skater, Miss Jennie
Lauder.

Best Gentleman Skater, S. Madill.

Winners not having yet received
prizes may obtain the same at

Mrs. M. L. L. clothing store.

Among the others in costume were

Mr. and Mrs. A. M. Stewart and

Mrs. Jones in riding habit.

Mr. Seton as ballet dancer.

sioner.

Miss G. Johnston, Jockey.

Mrs. Hagren, snow shoe girl.

Mrs. G. Robertson, Jockey.

Mrs. Grant as folly.

Mrs. Dora Oliver, Turkish dancing
girl.

Miss A. White, Goddess of Liberty.

R. Matz, Happy Hooligan.

Ruth Lecky, Spanish dancing girl.

Jas. White, Uncle Sam.

Mrs. Logan, Gypsy Queen.

Miss Protheroe, Roly Poly Sou.

Miss E. Grindley, summer girl.

Mrs. L. Grindley, Fairy Queen.

Mrs. Edna Matz, Little Riding Hood.

Costumes innumerable.

SUCCESSFUL PLAY LAST

EVENING.

One of the most attractive and
dramatic plays of La Roche the
famous Parisian author was rendered
last evening with great success by
the Creole Drama troupe in Robertson's
hall. The general applause during
the whole length of the performance
showed that the audience were very
pleased.

Mrs. L. Provost as Mrs. Perichin
and Mrs. F. Banks as Mrs. Bonnet
played their respective parts to per-
fection. Messrs Tessier, Biledeau,
Bretton, Farrell, Terrell, Bou-
che and Provost, all rendered their
parts also in good form. Mr. Tessier
was hero of the play interpreting
the role of Mr. Perichin kept the
audience in roars of laughter.

The thanks of the Creole Drama
troupe are tendered to Mr. Terrell.
Messrs. Provost and Messrs. Hart
and Joseph Pare. Elzeur, Pare,
Cochat and G. Watkins, who all
helped themselves to be excellent
performers and contributed very lar-
gely to the success of the evening.

G. FAIRE, NK. O. T. REAULT,
President, Sec.

Rowing Club Best Brandon.

Latin Special.

Manipeg, Feb. 25th—In senior
key the Rowing Club last night
won a high score this year
at Brandon 11 to 3.

Cities.

Anticosti, Que., Feb. 25th—A
fire destroyed by fire here.
A man was killed and one injured.
Losses \$5,000.

Anticosti, Feb. 25th—George Sims
and wife were blown up by gun pow-
der while experimenting with it
in a kitchen stove. They only
suffered slightly.

Anticosti, Feb. 25th—An old wo-
man named Monahan was brutally
killed by an axe. The son by her
marriage, named Felix Doyle is
in jail.

Anticosti, Feb. 25th—All Duch-
ess, S. A. and was decapitated.

THE GREAT WEST
LAND CO., Ltd.

Superfluous Hair

Removed by the New Principle

De Miracle

It is better than electricity, because
it does not scar or produce a new growth.
Better than X-ray, because it does not
burn, scar or paralyze the tissues under
the skin. Better than depilatories, be-
cause it is not poisonous; therefore,
it will not cause blood poisoning, or
produce eczema, which is so common
with depilatories, and does not break
off the hair, thereby increasing its
growth.

Electrolysis, X-ray or depilatories are
offered you on the bare word of the
operators and manufacturers. DE
MIRACLE is not. It is the only method
which is endorsed by physicians, sur-
geons, dermatologists, medical journals
and prominent magazines.

DE MIRACLE will be mailed to any
address, sealed in plain wrapper for \$1.
Your money back without question if it
fails to do all that is claimed for it.

Our booklet—the most complete
treatise on Superfluous Hair ever pub-
lished—containing the testimonials of
numerous physicians and surgeons and
those of hundreds of others—will be
sent free, in plain, sealed envelope,
upon request. Write for it to-day to

BANK OF MONTREAL

OCCUPIES NEW PREMISES.

Financial Institution Removing Today to the Handsome New Block.

The local branch of the Bank of Montreal is being removed today to the splendid new block erected at the corner of Jasper avenue and Howard street, where the doors will be opened for business on Monday. The site is one of the best in the business section of the city and on it the authorities of the bank have erected a building in keeping with the standing of the institution and a credit to the most promising and progressive city in the Canadian Northwest. The new block is a handsome three story brick structure the ground floor of which will be occupied entirely as banking premises and the upper floors as a residence for the manager.

The main entrance to the banking room is on Jasper avenue and is covered by a porch supported on Doric columns. The interior is magnificently arranged and finished. The ceiling is high and supported by graceful arches resting on ornamental columns with metal capitals. Ceiling and walls are suitably finished and the floor is composed of Italian marble tiles. Benches and seats, like the walls of the rounds for the convenience of customers. The manager's office is conveniently situated to the left of the main entrance.

The interior arrangements of the banking department leave nothing to be desired. The counters and desks are of antique quartered oak and the fittings of polished brass and bronzed metal. The premises allow plenty of room for the employees, and desks and other furniture have been liberally supplied. The vault is at the rear of the building and has been constructed according to the latest methods to render it burglar and fire proof. The safe within the vault is provided with time locks, beside the usual combination locks. The vault is built up to the second floor where provision is made for valuables left with the bank for safekeeping. A cloak room is also arranged for the use of the employees.

Large plate glass windows on three sides of the building give splendid light in all parts of the banking room.

The entrance to the upper floors, which will be occupied as the manager's residence is on Howard street and one stairway, of oak with oak railings lead up to these apartments which have been luxuriously finished and conveniently arranged.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal, and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates, may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered minerals in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal points bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, asbestos, and other minerals in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the value not exceeding fifty per cent.

Per Mining, Manitoba and the

N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental, \$10 per annum, for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal points, one at each end, bearing poles. Entry may be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate. The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party, primary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2.

A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent, is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and if less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unprospected land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 40 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

NOTICE

The firm of Larue & Picard have decided to carry on a strictly Cash Business on and after the 6th day of February, 1905. We heartily thank the public for their past patronage and trust that under our new conditions they will continue to favor us with their esteemed custom.

Such
a
Sacrifice!

A pile of
good values
can be found
in all our
departments
this week.

ALL KINDS OF GOODS.—Fur Coats, Fur Caps, Felt Boots, and Over-shoes for Women's Wear are included in the offer, and you can just revel in bargains in Lingerie or Lace, Collars, or Corsets, Shirt Waists or Stockings, Dress Goods or Notions. Experienced shoppers will come as early in the day as possible.

LARUE & PICARD

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—its smoking quality—fragrance and pungent deliciousness, is conserved to the smoker intact.

J. BRUCE PAYNE, Limited
Grady, P.Q.

My French Cigars have no filler, a high grade selected leaf of the Manzanilla district of Cuba, which I buy myself in Cuba—a holder of the celebrated brand of the Connecticut valley and a clear leaf wrapper—genuine Sumatra, which I import direct from Amsterdam. My products are an unusually good smoking.—J.B.P.

None genuine unless branded PHA-RO

J.B. Mercer, Distributor, Edmonton, N.W.T.

During the month of February we will clear out the balance of Our Winter Stock at Sacrifice Prices

We need the room for spring goods, and you can afford to buy the goods at the tempting prices offered. 33 1/2 per cent off Gloves and Mitts, 20 per cent off Horse Blankets, 15 per cent off Fur Robes and Fur Coats.

ALL GOODS MARKED IN PLAIN FIGURES.

Discounts are genuine, and it is an exceptionally good opportunity to buy seasonable goods at wholesale prices.

The North Sea Commission

Paris, Feb. 23.—A semi-official statement has appeared relating to the work of the international commission which has been considering the North Sea incident. It is as follows:

The full commission met today in the ministry of Foreign Affairs and again this afternoon in order to proceed to an examination of the report recapitulating its conclusions. The report is rather long, comprising ten large pages. The principal author is Admiral Von Spoun (Austrian), but all the members of the commission collaborated in getting it up.

The Commission gives no opinion on the question of the presence or absence of the Japanese torpedo boats in the North Sea, merely that the Russian Admiral quite legitimately believed his squadron was endangered, and he had the right, under the circumstances, to act as he did.

The commissioners refer to the Russian government's engagements to indemnify the victims of the deplorable incident.

The report will be sent tomorrow by special message to the Russian and British governments not because it is liable to modifications at the instance of one or the other of the governments, as the commission's decision is without appeal, but the commissioners do not wish the powers interested to simply learn the conclusions arrived at through the press.

There is nothing in this preliminary communication or report, except an act of defence.

The public sitting for the reading of the conclusions will probably be held on Saturday. The admiral will not be in full uniform. The proceedings probably will be closed by a speech by Admiral Fournier, the president of the commission to his colleagues.

London, Feb. 23.—A strong chord of indignation is sounded by the London daily newspapers this morning over the semi-official statement relative to the decision of the North Sea commission giving to Russia the victory, but it is still hoped that the publication of the full text of the commission's report may modify the impression produced by the preliminary version, which in one of intense disappointment.

The Daily Mail goes so far as to declare that the decision has dealt a death-blow to arbitration. Some of the newspapers blame the government strongly for ever consenting to subject such a matter to arbitration while some of the government organs find cold comfort in the fact that the country, by doing so, avoided war with Russia. No question is raised that the decision must be respected, and Great Britain's share of the heavy costs will be fully paid for, but it is considered that the decision leaves the question of neutral rights on the sea in a deplorably unsatisfactory state, and creates a dangerous precedent.

The Morning Post says: "A new dogma on international law is thus established, under which the commander of a belligerent fleet may attack and destroy unarmed vessels without any other plea than that he conceived his ships might be in danger. This doctrine is so monstrous and inconceivable that we can only yet hope an official report will give different reading."

Just before Parliament rose last night, replying to a question whether any are au fait to protect the fishing fleet on the Dog or Bank during the passing of the third Russian Pacific squadron has been taken, Premier Balfour said that his Majesty's government placed implicit reliance on the Russian assurances that they have taken every precaution to guard against the recurrence of any such incident, and that special instructions have been issued to the whole Russian fleet with this object in view.

Revillon Brothers

Buy Your Flour Now!

This is the advice we give to our numerous customers and to the public in general

Buy Your Flour Before It Gets Higher!

We are selling Flour too cheap at present! Still, our loss is your gain. And remember, it is bound to go up.

Stop and Consider!

Wheat has reached the \$1.06 mark in Winnipeg, \$1.19 1-2 in Minneapolis, and American millers are buying all the Canadian western wheat they can get hold of for milling purposes. The farmers of the Northern States have their eyes turned on this side of border to get their seed wheat. The last item alone means about five millions of bushels. All this will certainly influence the price of wheat, consequently the price of bread stuff.

Do Not Hesitate - - Do not Delay

Come and buy your flour from us, we have

Ask Your Grocer

Nine Nations

Now Use Ligozone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Ligozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Ligozone has cured.

If you need help, please ask some of these users what Ligozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Ligozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Very Freely—Infection
Asthma—Anemia
Bronchitis
Blood Poison
Cancer
Cholera
Croup
Diphtheria
Erysipelas
Gastritis
Hepatitis
Hysteria
Leucorrhoea
Lupus

Fever—Gall Bladder
Jaundice—Gout
Lymphatic Glands
Tuberculosis
Typhoid
Venereal Disease
Worms' Diseases

All diseases that begin with fever—all inflammation—all salivary gland diseases—all the results of impure or poisoned blood. In nervous disability Ligozone acts as a vitamin, accomplishing what no drug can do.

50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligations whatever.

Ligozone costs 50c. and \$1.
